Next time I hope it will be organized better

Better planning when the weather is bad, just to have a back up plan. More parting and free time with each other, to know each other much better.

Actually, it was a great experience. I think, we enjoyed a lot of fun here.

It was perfect I liked everything

I think it was very good planned and I enjoy it

The weather wasn't well taken into account. Still I enjoyed the week, and would recommend visiting Porto by ourselves.

It was a very cool experience :)

I love the activities with the elderly!

I loved the "Red Nose" workshop, definitely an unforgettable experience!!

We didn't know some information.

more free time

thanks for the preparation this meeting

I think the communication between host families and coordinators should be better.

more free time - communication and instructions before the LTA need to be improved a bit. Overall a great team and excellent partners!

A big thank you to the Portuguese teacher and student team, for taking such good care of us!

One suggestion there should have been extra free time for students to interact more amongst themselves. Shame we didn't have more time in Porto.

I'd have appreciate some more time dedicated to the report of the activities done in preparation of the meeting, anyway everything was enjoyable and the atmosphere among the partners fantastic .

A HUGE THANKS for the constant and efficient assistance from all the Portuguese staff and students

Too much activities. Few free time
